

Technology Transactions

At a Glance

Technology Backgrounds

Munck Wilson Mandala is one of the largest and most respected technology-focused law firms to regional and global clients.

Customized Teams

Our unique approach involves combining highly skilled IP attorneys, many who are registered patent lawyers, with our award-winning transactional lawyers who understand the complexities of technology-related transactions.

Sophisticated Technology Clients

We represent clients in cutting-edge technology including biotech, fintech, telecommunications, e-commerce, semiconductors, renewable energy, medical devices, pharmaceuticals, and more.

Overview

As one of the leading IP Powerhouses in the U.S., Munck Wilson Mandala is known for negotiating technology transactions on behalf of clients, regionally, nationally, and globally. Our strong IP force, consisting of more than 30 registered patent attorneys and more than 50 STEM degrees works with our highly experienced transactions team, providing a full arsenal of services to ensure your transaction is sound and your technology is protected.

At Munck Wilson Mandala, we have a passion for technology and a commitment to providing the best possible representation for technology companies. Our attorneys have the background to address the complexities of technology related transactions. We have represented businesses around the world in connection with royalty agreements, content licenses, invention agreements, and confidentiality/non-disclosure agreements.

We also have extensive experience with technology development and transfer agreements, software licensing and distribution arrangements, outsourcing agreements, e-commerce transactions and other contracts that are the lifeblood of technology companies.

We provide sophisticated IP portfolio due diligence. We understand that individual agreements and transactions, as well as your patent and asset-protection program, must work together as integral parts of your broader business strategies.

The combination of our expertise in technology and intellectual property law and proficiency in transactional work enables us to offer integrated solutions that provide a strong foundation for your success.

"I have put many legal projects out for a bid to many law firms, but I almost always know that Bill is going to be awarded the project based on the quality of his work and his price points," says John Maxin, who previously served as vice president at Goldman Sachs managing its IP portfolio. "Bill does not hesitate to tell a client when they are going down a wrong path."
